SEARCH TEAM MEMBERS

- Supervisor
- Guard
- Interpreter
- Searcher

The supervisor's responsibilities include oversight of the search, identifying and positioning team members, and ensuring the search proceeds safely and effectively. The team leader selects the location for the search, considering protection for the team and the detainee.

Announcements
Good Morning, Welcome!
******* Major Network Problems *******
‡ The current status is that commercial (off-post) access to .mil is not available at this time and no ETA has been given on the resolution. This includes any military sites that utilize commercial Internet Service Providers (ISPs). There have been offline communications indicating 6000 URLs were dropped from the DISA access list. At this time, all URLs needing access from off-post are being resubmitted as requested by DISA. Although this has been out of our control, we understand the affect on training and apologize for any inconvenience this may cause.
***** ALC-CC Denied Access? ****
‡ If you have been in your ALC-CC training material at least once; access your course direct through: https://ncoes.ellc.learn.army.mil from now on.
